MetaLine Repair and Coating Systems

Bulk material plants

Sprayable elastomeric multifunctional coatings. Wear protection, non-stick properties, noise deadening, part protection, fracture protection

- Telescope pipe packages
- Filling equipment
- Slurry channels
- Heliconveyor
- Chutes / pouring containers
- Loading pipes
- Pebble mills (mineral technology)

- 1 Telescopic loading pipe finished with non-stick properties
- 2 Wear protection and sound deadening on this spiral conveyor
- 3 Gentle coating in screw manufacturing
- 4 Undersize discharge with protective coating from the food sector
- 5 Elastomerified grinding body for pure minerals
- 6 Coated sieve tray discharge in pharmaceutical quality (FDA)
