

# Handling Safety

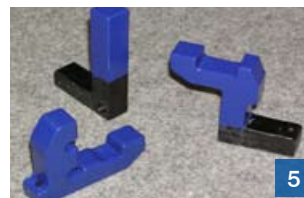

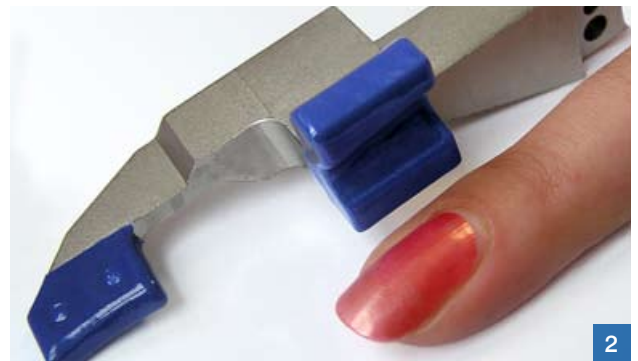

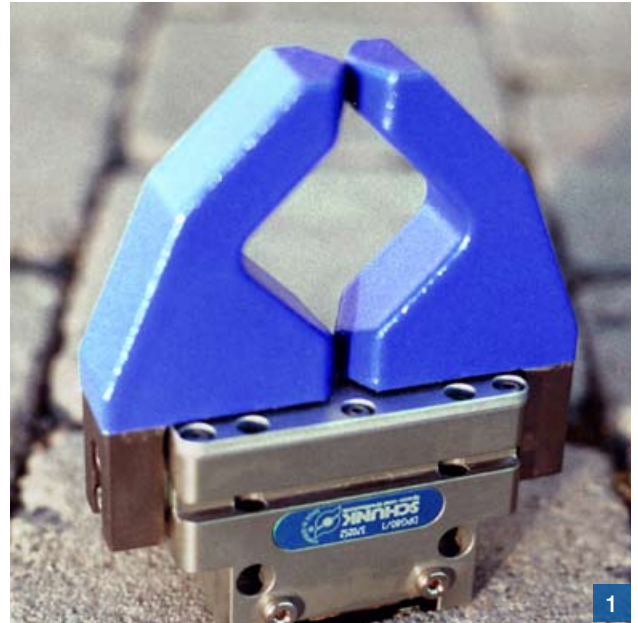

MetaLine Repair and Coating Systems

## Clamping / Gripping tools

Sprayable elastomeric coatings to protect sensitive surfaces, for scratch protection, slip protection and to improve handling safety

- Multijaw grippers
- Hold-down / clamping tools
- Fork lift attachment grippers
- Clamping pliers
- Clamping pads / stops
- Girders
- Steady rests
- Load hooks (friction up my(0) = 0,7)

- 1 Two-jaw gripper with a 2 mm thick protective coating
- 2 Part of a coated clamping collet for plastic parts
- 3 Lifting hook for the slip-resistant transport of heavy goods
- 4 Elastomeric gripper for glass bottles in FDA pharmaceutical quality
- 5 Coated pressure pads for welding in vehicle shell construction
- 6 Miniature gripper with rubber properties – self-made
