MetaLine Repair and Coating Systems

Flanges Seals

Pourable or sprayable elastomeric coatings for the amorphous production of rubber-like seals or sealing surfaces. Mechanically highly resistant. Good chemical resistance in a pH range of 3 to 11. Saltwater-proof

- Pipe flanges / connections
- Sealing surfaces
- Couplings
- Compensators

6

- 1 *Seamlessly rubberized in liquid form and thus extremely resistant*
- 2 *A seamless safety concept from the inside to the outside*
- 3 *Elastomeric flange sealing with MetaLine – simply clever*
- 4 *Seals and protects against solid wear and borderline penetration*
- 5 *Also optimally suitable for blunt pipe connections*
- 6 *Casting application for the production of special flanges*
