

Increased Comfort

MetaLine Repair and Coating Systems

Functional Seats

Sprayable elastomeric coatings for repair or first-time coating of industrial or communal seats. Seamless, hygienic, decorative. Adheres to any conventional surfaces. Mechanically very resistant, water-proof and abrasion-resistant

- Amusement ride seats
- Game / recreational facilities
- Implement seats (e.g. forklifts)
- Communal furniture
- Foamed plastic patterns
- Street furniture

4

5

6

- 1 Newly coated safety seat of a recreational equipment (Prater)
- 2 This enables metallic seats to emit sitting heat
- 3 Newly coated work chair – durably, decorative and soft
- 4 For furniture design – realistic model coating
- 5 MetaLine – if seats need to be exceptional
- 6 Seamless, water-proof and hygienic „relaxing seat“
